## Roscolux

Roscolux is the most widely used color filter range for theatre, film, television, live entertainment and architectural applications. For a detailed list of the colors and diffusers of the range consult the Roscolux swatchbook or Rosco website.

**Roscolux Sheets 20" x 24"**

**Roscolux Rolls 24" x 25'**

## Supergel

Supergel is the most widely used colour filter in the world today. It is comprised of a range of more than 75 colours and 15 diffusions. Selected primarily because of the excellence and range of colour, it is unique in its manufacturing and durability as well.

**Supergel Sheets 20" x 24"**

**Supergel Rolls 24" x 25'**

## E-Colour+

A comprehensive range of European color and correction filters based on the Cinemoid™ system. For a detailed list of colors, diffusers and reflection materials consult the E-Colour+ swatchbook or the Rosco website.

**E-Colour+ Sheets 21" x 24"**

**E-Colour+ Rolls 48" x 25'**

## Cinegel

The AcademyAward® winning range of color and correction filters, Cinegel includes diffusers, reflectors and the Storaro Selection and CalColor filters. For a detailed list of products, consult the Cinegel swatchbook or the Rosco website.

**Cinegel Sheets 20" x 24"**

**Cinegel Rolls**

**Diffusion Rolls**

(Most rolls are 48" x 25')

## Permacolor Dichroic Glass Filters

Rosco Permacolor dichroic glass filters are the perfect choice for designers requiring long-lasting, high-quality filters. Permacolor withstands the heat of high temperature lighting fixtures like MR16, metal halide, and high wattage tungsten lamps and are ideal for use in permanent installations. Rosco's range of standard colors includes the bright saturated colors prone to premature fading in gel as well as a selection of pale tints and accent colors selected by leading architectural designers around the world.

Size		Suffix			
30cm x 30cm sheets (11.8" x 11.8")		1030			
60cm x 60cm sheets (23.6" x 23.6")		1060			

Options for customizing the color and size of OPTI-FLECS filters to fit the requirements of your job are available.

OPTI-FLECS Swatchbook – Contains one 3"x5" piece of every OPTI-FLECS filter. No. 950 SBOPT 0305

## Flash Packs

A range of gel kits for photographers shooting with speedlights to enhance their lighting setups.

Each Flash Pack contains at least 55 pieces of filter, sized at 1.5" x 5.5" – perfect for covering any speedlight strobe.

### The Strobist™ Collection

The essential filters, chosen by Strobist.com founder David Hobby, that every photographer needs to balance & compose the light in their shot.

Strobist Flash Pack Single	No. 110 11005 0001
Strobist Flash Pack Case of 24	No. 110 11005 0024

### Digital After Dark® Flash Pack

A collection of colored lighting filters to create dramatic nighttime photos, selected by Kevin Adams, founder of the "Digital After Dark" blog.

Digital After Dark Flash Pack Single	No. 110 11405 0001
Digital After Dark Flash Pack Case of 24	No. 110 11405 0024

### Beauty Flash Pack

A selection of cosmetic filters that have been hand-selected by fashion photographers to enhance and beautify skin tones.

Beauty Flash Pack Single	No. 110 11205 0001
Beauty Flash Pack Case of 24	No. 110 11205 0024

### CalColor™ Flash Pack

Two pieces of every CalColor – Rosco's patented system of primary & secondary color filters – for photographers to precisely control the color of their light.

CalColor Flash Pack Single	No. 110 11605 0001
CalColor Flash Pack Case of 24	No. 110 11605 0024

## Filter Kits

A range of gel kits that have been configured to control the output of lighting fixtures used in filmmaking, photography and video productions.

### Photo Lighting Kit

The essential lighting filters to balance and compose light for photography, including: CTO's, CTB's, Neutral Densities and a variety of effects colors.

Photo Lighting Kit 12x12	No. 110 11012 0001
Photo Lighting Kit (Case of 12)	No. 110 11012 0012

### Beauty Kit

A selection of subtle, cosmetic color filters that have been handpicked by fashion experts to beautify, soften and enhance skin tones.

Beauty Kit 12x12	No. 110 11212 0001
Beauty Kit (Case of 12)	No. 110 11212 0012

### Digital After Dark® Kit

A selection of lighting filters designed for night shoots and for adding vibrant color into nighttime imagery and light painting compositions.

Digital After Dark Kit 12x12	No. 110 11412 0001
Digital After Dark Kit (Case of 12)	No. 110 11412 0012

### CalColor™ Kit

Rosco's Academy Award® winning system of calibrated lighting filters produce pure primary and secondary colors to enhance your composition.

CalColor Kit 12x12	No. 110 11612 0001
CalColor Kit (Case of 12)	No. 110 11612 0012

### Color Correction Kit

Specialized filters to balance common light sources in a shot, including a complete set of CTO's, CTB's, Plusgreens & Minusgreens.

Color Correction Kit 12x12	No. 110 11812 0001
Color Correction Kit (Case of 12)	No. 110 11812 0012
Color Correction Kit 20x24	No. 110 11824 0001

### Diffusion Kit

A collection of materials that affect the shape, texture and quality of light and shadow in a composition.

Diffusion Kit 12x12	No. 110 12012 0001
Diffusion Kit (Case of 12)	No. 110 12012 0012
Diffusion Kit 20x24	No. 110 12024 0001

### Color Effects Kit

An assortment of popular vibrant and contrasting color filters for creating a wide variety of common lighting effects.

Color Effects Kit 12x12	No. 110 12412 0001
Color Effects Kit (Case of 12)	No. 110 12412 0012
Color Effects Kit 20x24	No. 110 12424 0001

### Cinegel Sampler Kit

A selection of Rosco's Academy Award® winning Cinegel line, including a range of color correction filters for balancing common light sources and diffusions for softening shadows, or altering the direction and spread of the beam.

Cinegel Sampler Kit 12x12	No. 110 12212 0001
Cinegel Sampler (Case of 12)	No. 110 12212 0012
Cinegel Sampler 20x24	No. 110 12224 0001

## Thermashield

When used in conjunction with Roscolux or Cinegel color filters, Thermashield prevents the color filters from absorbing IR energy as heat, thus allowing the filters to last much longer. For maximum efficiency, a minimum 1" air space must be maintained between Thermashield and the color filter.

- Thermashield 12" x 12"**  
No. 101 01995 1212
- Thermashield 20" x 24"**  
No. 101 01995 2024
- Thermashield 48" x 48"**  
No. 101 01995 4804

## Super Heat Shield™

Super Heat Shield is a heat resistant plastic that acts as a barrier, blocking the heat of a fixture. For maximum efficiency, a minimum 1" air space must be maintained between Super Heat Shield and the color filter.

- Super Heat Shield 20" x 24" sheet**  
No. 101 01991 2024
- Super Heat Shield 24" x 25' roll**  
No. 101 01991 2425
- Super Heat Shield 24" x 50' roll**  
No. 101 01991 2450
- Super Heat Shield 48" x 25' roll**  
No. 101 01991 4825

## UV Filter™

Rosco UV Filter effectively extends the life of your color filter by absorbing the damaging ultraviolet energy that can prematurely fade dyes.

- UV Filter 20" x 24" sheet**  
No. 101 03114 2024
- UV Filter 24" x 50' roll**  
No. 101 03114 2450
- UV Filter 48" x 25' roll**  
No. 101 03114 4825

## Storage Drawers

CLEARANCE\*

Heavy gauge two-inch deep corrugated drawer and sleeve that accepts 20" x 24" sheets of Rosco color filters. Shipped completely assembled. Packed six to a case.

- Storage Drawers (set of 6)**  
No. 110 08610 0000

## Safety Frames™

CLEARANCE\*

For use with Roscolux, Cinegel or E-Colour+ gel filters. Made from FRP, an Underwriter's Laboratories approved flame retardant fiberboard. The material remains cool for safe handling and has a UL94 Flammability Classification of 94V-0.

No. 110 08600

Add to Product No.	Frame Size	Lens Size
0750	7 1/2"	5 7/8"
0975	9 3/4"	7 3/4"

## RoscoSleeves™

For simple and economical control of fluorescent lighting, Rosco Sleeves can be supplied in any Rosco filter color—or (combination of colors) Roscolux, Cinegel, E-Colour+ and GamColor. Not recommended for use with High Output or Very High Output lamps. T5 and T8 Sleeves come standard with UV filter in addition to the color selected.

T5 x 24"	No. 110 08401 2405	T8 x 24"	No. 110 08401 2408	T12 x 24"	No. 110 08401 2412
T5 x 36"	No. 110 08401 3605	T8 x 36"	No. 110 08401 3608	T12 x 36"	No. 110 08401 3612
T5 x 48"	No. 110 08401 4805	T8 x 48"	No. 110 08401 4808	T12 x 48"	No. 110 08401 4812
T5 x 60"	No. 110 08401 6005	T8 x 60"	No. 110 08401 6008		
		T8 x 96"	No. 110 08401 9608		

## ChromaSleeves

CLEARANCE\*

ChromaSleeves are body-colored, extruded polycarbonate sleeves with an added UV absorber to prevent premature color fading. Available in seven standard stocked colors. Not recommended for use with High Output or Very High Output lamps.

Royal Blue	No. 110 08410	Green	No. 110 08411	Ruby Red	No. 110 08412	Purple	No. 110 08413
Pink	No. 110 08414	Yellow	No. 110 08415	Amber	No. 110 08417		

Add suffix to product code for each size

T5 x 48"	4805	T8 x 48"	4808
----------	------	----------	------

## Quick Color Sleeves

This gel-only product is a flat welded tube of Rosco color filter, made in any color from any line of Rosco gel. T5 and T8 sleeves come standard with UV filter. Quick Color Sleeves can be supplied from any color in the Roscolux, Cinegel or E-Colour+ ranges. Folded flat for easy shipping and storage, the sleeve puffs open like an envelope to slide over standard fluorescent tube. Not recommended for use with High Output or Very High Output lamps.

T5 x 24"	No. 110 08430 2405	T8 x 24"	No. 110 08430 2408	T12 x 24"	No. 110 08430 2412
T5 x 36"	No. 110 08430 3605	T8 x 36"	No. 110 08430 3608	T12 x 36"	No. 110 08430 3612
T5 x 48"	No. 110 08430 4805	T8 x 48"	No. 110 08430 4808	T12 x 48"	No. 110 08430 4812
T5 x 60"	No. 110 08430 6005	T8 x 60"	No. 110 08430 6008	T12 x 60"	No. 110 08430 6012
T5 x 96"	No. 110 08430 9605	T8 x 96"	No. 110 08430 9608	T12 x 96"	No. 110 08430 9612

Please specify Rosco gel color when ordering.

## Light Lab Edition

This edition contains a 6.5" x 12" (16.5cm x 30.5cm) sample of each color and diffusion. This large size allows a part of the sample to be used in an ellipsoidal spotlight - and still have half the sheet left in the book. Users will find all the familiar data, such as a wavelength chart and transmission data printed on the full size sheets behind each filter.

The book is bound with clasping book rings for easy removal of gels. In addition to the colors, each book is equipped with two Rosco safety frames, 6.25" (15.87cm) and 7.5" (19.05cm), a plastic pouch for saving cut gel, and a Rosco gel marker.

### Roscolux Light Lab Edition

#950 SBLEL 0612

## Roscolene

A popular choice for lighting situations where cooler incandescent lights are used. It offers a wide range of saturated colors that are widely used by graphic artists and others in the display industry.

**Roscolene Sheets 20" x 24"**

**Roscolene Rolls 24" x 25'**

## LitePad Vector™

LitePad™ Vector produces a soft, flattering light output that filmmakers, lighting directors and photographers can use in their projects when they're on-location and in small studios. LitePad Vector provides the same edge-lit LED lighting that LitePad is known for – but with improved brightness, color rendering and a streamlined footprint. Measuring in at 8"x8" (200mm x 200mm), LitePad Vector is available in two models – Vector CCT (variable color temperature) and Vector Daylight (fixed at 6000K). Thanks to its on-board dimming & color temperature controls, and its compatibility with standard Anton/Bauer or V-Mount battery packs, the LitePad Vector is the optimal choice for illuminating any project that needs a compact, mobile light fixture.

### LitePad Vector Daylight

No. 292 00808 0056

### LitePad Vector CCT

No. 292 00808 0120

## LitePad™ Vector Kits

LitePad™ Vector is designed to travel anywhere a soft, flattering light output is needed. Two LitePad Vector Kits are available in order to maximize LitePad Vector's compact, lightweight mobility: a Two-Head Backpack Kit and a Three-Head Location Lighting Kit. Whether it's on top of a mountain, deep inside an ice cave or an office building across town during rush hour, some locations are more remote than others – but they all need proper lighting. Both kits enable shooters to quickly and professionally set up their lighting at any location.

See the LitePad Vector Kits Web Page for a full listing of what's inside each kit.

### 2-Head LitePad Vector CCT Backpack Kit

No. 290 50012 0120

## LitePad™ Axiom

The LitePad Axiom range is a series of LED light sources designed specifically for filmmakers, videographers and photographers. The housing not only protects the light source, it also provides a universal mounting system. This allows the LitePad Axiom units to be affixed with brackets for C-Stands or other conventional methods. Each product is available with either tungsten-level or daylight-level output and with or without a transformer.

### LitePad Axiom Daylight

- LitePad Axiom 3" x 6" Daylight**  
No. 290 70306 0120

No. 290 82424 0120

## LitePad™ Kits

Rosco offers four different kits for filmmakers, digital shooters and still photographers. Each of the four is available with a full complement of Axiom LitePads and the required accessories for focusing, mounting, and coloring. Kits can be specified with either daylight-level output LitePads or tungsten-level output. A fifth kit, the HO+ Everywhere Kit, is equipped with both tungsten and daylight level HO+ LitePads.

See the Rosco web site for details on what is in each kit.

### LitePad HO+ Everywhere Lighting Kit

No. 290 2400ELKIT

## Custom LitePad™

### Custom LitePad HO90

Rosco LitePad HO90 is a flat panel LED light source providing even, indirect lighting and is available in three color temperatures: 2800K, 4000K, and 5300K. At only 8mm thick, LitePad HO90 is perfectly suited to virtually any backlighting installation or to projects where only a cool, low profile light source can be used. LitePad's patented system is comprised of indirect LED sources machined into a cast acrylic panel. Light amplifying channels etched into the rear surface of the plastic sheet smoothly and evenly distribute light across the entire surface of the LitePad. This durable and reliable construction can be fabricated in virtually any size or shape and is easily installed. A variety of options are available to customize light output, power management, and dimming control. Rosco project consultants are available to assist in specifying the optimal configuration of panels and accessories for your project.

LitePad HO90 offers all the same features of Rosco's standard LitePad product but offers a superior color rendering for projects where color fidelity is critical.

### Custom LitePad CCT

Rosco LitePad CCT is a tunable white, flat panel LED light source, providing even, indirect lighting. At only 8mm thick, LitePad CCT is perfectly suited to virtually any backlighting installation or to projects where only a cool, low profile light source can be used. LitePad's patented system is comprised of indirect LED sources machined into a cast acrylic panel. Light amplifying channels etched into the rear surface of the plastic sheet smoothly and evenly distribute light across the entire surface of the LitePad. This durable and reliable construction can be fabricated in virtually any size or shape and is easily installed.

LitePad CCT Tunable White offers all the same features of Rosco's standard LitePad product but includes a variable color temperature light output. Two separate channels of LEDs allow you to dial in the precise quality of white light, from 3000K to 6500K. Dimming and control accessories sold separately.

### Custom LitePad RGB

Rosco LitePad RGB is a color changing, flat panel LED light source providing even, indirect lighting. At only 10mm thick, LitePad RGB is perfectly suited to virtually any backlighting installation or to projects where only a cool, low profile light source can be used. LitePad's patented system is comprised of indirect LED sources machined into a cast acrylic panel. Light amplifying channels etched into the rear surface of the plastic sheet smoothly and evenly distribute light across the entire surface of the LitePad. This durable and reliable construction can be fabricated in virtually any size or shape and is easily installed. A variety of options are available to customize light output, power management, and dimming control. Rosco project consultants are available to assist in specifying the optimal configuration of panels and accessories for your project.

LitePad RGB Variable Color offers all the same features of Rosco's standard LitePad product but uses high quality color mixing RGB chips. Three channels of control are used to dial in the precise color desired. Dimming and control accessories sold separately.

## Silk™ 210 LED Fixture

Designed to meet the requirements of the most discerning filmmaker, the Silk 210 LED Fixture has been specifically developed for film and video applications that demand high-quality light output with extreme color accuracy.

Utilizing proprietary, state-of-the-art, tungsten & daylight balanced LEDs, Silk 210 produces a high volume of broad-spectrum white light. With TLCI, CRI and R9 metrics in the high 90's, the fixture is capable of producing a high volume of light output at color temperatures ranging from 2800K – 6500K.

The Silk 210 features a non-glare diffuser to provide a uniform, single-source light, which creates enticingly soft, diffused light that gently embraces its subjects. The fixture has on-board dimming and color temperature controls for filmmakers to control the fixture on-location, as well as DMX options for integration into broadcast studios. It ships with a 100 – 240 AC power supply, enabling it for worldwide use, and V-Lock, Anton/Bauer and 4-Pin battery options are available to enable maximum portability.

The Rosco Silk 210 LED fixture is available as an individual unit or as a single-unit kit that includes a lightweight, soft-cover case, and an egg crate louver.

## Miro Cubes™

Miro Cubes™ LED fixtures deliver powerful light output from a self-contained, 50 watt, 4" cube. An optional ARC configuration is available on the WNC and 4C units, which offers a hard-wired pigtail and recessed Rj45 DMX ports for permanent installs.

### Miro Cube 4C

Using RGBW Quad Chip technology, this color mixing wash light offers a true white, plus a palette of saturated mid-tone and pale tint colors which can be dialed in at the touch of a button.

**Miro Cube 4C - Black**

### Miro Cube UV

The smallest, most affordable high powered UV light available to lighting professionals. The LED emitters have a 20,000 hour life assuring a virtually maintenance-free installation. The luminaire outperforms conventional long throw fixtures in virtually every category and offers full range dimming for the first time in a UV source.

**Miro Cube UV - Black**

No. 515 90050 1075

## Braq Cubes™

Braq Cube™ LED fixtures deliver powerful light output from a self-contained, 100 watt, 5" cube. Braq Cubes are easily capable of 50-ft throws, making them perfect for full stage color washes, as key lighting inside broadcast studios, or as a down-light in retail stores, museums or other architectural installations.

### Braq Cube™ WNC

Utilizing a tri-color mix of warm, neutral and cool LEDs, this luminaire provides 7100 lumens of bright, tunable white light. Its output can be adjusted from 2800K to 6500K to create any color temperature desired for broadcast, theatrical or architectural applications.

## Miro/Braq Track Mounting

### Track Adaptor Yoke Assembly

Miro Cube Track Adapter Yokes allow the compact and lightweight Miro Cube to be powered from many common lighting track systems. These Adaptor/Yoke assemblies replace the mounting yoke provided on the Miro Cube and allow it to be easily positioned any where along the length of track. In addition to the standard yoke assemblies offered, custom adaptor yokes can be made for most line voltage or mains powered track system around the world. Please inquire with your local Rosco representative or Distributor. Note that Miro Cubes cannot be used on low voltage track systems.

### Two Circuit DMX Data Track

Track lighting is a standard item in the lighting design tool box. It is ideal for architectural, themed environment, low ceiling height, retail and museum applications where discrete, reconfigurable, low profile fixtures and a clean look are required. The Black Tank's DMX Data Track takes track lighting to the next level by combining power and full speed DMX512 control in a single track, and track adapters allow you to integrate and control any Miro/Braq Cube™ fixture.

DMX Data Track provides an incredible solution for architectural installations and for reconfigurable performance spaces. The DMX data allows dynamic control of lighting, color temperature (white light) or color mixing as desired.

The specification grade surface mounted track system contains 7 conductors and includes 2 uniquely selectable power circuits. A 22 gauge nickel plated copper data bus provides full speed DMX512 control of lighting fixtures and provides control signal at any point along the track. The track consists of an extruded aluminum profile which can be easily cut to length onsite. The track also has pre-punched holes at 8" spacing for mounting.

## Belts vs. Gears

The Vortex 360 and the Double Gobo Rotator, shown on the next page, use precision machined metal gears as the drive mechanism. From the motor shaft to the gobo wheel, each point of contact in the drive assembly is gear to gear. The advantages are as obvious now as they were nearly twenty years ago when these products were first designed – rock solid reliable movement and a durable, low maintenance mechanism.

The Revo PRO and Simple Spin rotators, introduced in 2011, were designed with belt drive systems. The significant benefit of the belt drive in Rosco's new rotators series is that it is virtually silent, and fully 25% quieter than other rotators. An inherent difference with belt drive is a more consistent smooth rotation as the belt is constantly in contact.

### SimpleSpin™ Dual Gobo Rotator

One stepper motor, two gobos, Rosco's SimpleSpin rotator is a variable speed device capable of rotating two gobos in opposing direction. A "set and forget" on-board speed control and direction switch is included, as is an internal universal power supply at 100-240v, 50/60hz. The device can also be controlled by connecting it to a dimmer. Like all Rosco Revo rotators, it is built with a high temperature silicon belt drive, a unique threaded collar for easy installation of glass or steel gobos and a friction lock for secure placement.

#### SimpleSpin™ Dual Gobo Rotator

No. 205 63100 0000

### RevoPRO™ Gobo Rotator

A dual programmable rotator which includes complete DMX controlled indexing features plus a stand-alone programmable mode that requires no DMX. Internal 100-240v mains power, so no PSU is required. It is built with a high temperature silicon belt drive, stepper motors, a unique threaded collar for easy installation of glass or steel gobos, friction lock for secure placement and dimmer control capability.

#### RevoPRO™ Gobo Rotator

## Vortex Gobo Rotator

CLEARANCE\*

The sleek unit houses two carefully crafted drives. A single silent motor drives both assemblies. Even at full speed, the Vortex 360 Dual Rotator is so quiet it can be used anywhere in a theatre or venue. The Vortex 360 does not require any additional power supply. The transformer/plug that comes with it can be plugged directly into a wall outlet.

### Vortex 360 Dual Rotator

No. 205 83000 0000

## Double Gobo Rotator

CLEARANCE\*

Rosco's Double Gobo Rotator allows you to achieve kinetic and often spectacular lighting effects by rotating two gobos in the same or opposite directions, at the same or varying speeds. This unit requires a DMX/DC Controller, Variable Speed Controller or MFX Control Adaptor.

### Double Gobo Rotator DC Vari-Speed, 0-9 RPM

No. 205 21000 0120

## Power Supply Units

Rosco's power supplies are compatible with nearly all color scrollers, gobo rotators and other accessory devices in common use. The PSU-200 has four outputs and four returns. It can be pipe mounted with a C-Clamp or other hanging device. PSU-51 has a DMX passthrough.

PSU-200

### PSU-200

No. 205 71402 0200

### PSU-50

No. 205 71402 0051

## Double Gobo Rotator Accessories

### DMX/DC Controller

CLEARANCE\*

No. 205 45000 0120

The Rosco DMX/DC Controller provides power and speed control for the Double Gobo Rotator. It is intended for remote control via a DMX512 signal. The output circuitry of Rosco's DMX/DC Controller is identical to that of its four channel Variable Speed Controller. Speed, range, bi-directional drive, load compensation and output protection are all maintained.

### Variable Speed Controller

CLEARANCE\*

No. 205 46000 0120

This four channel Variable Speed Controller is designed to provide power, direction and speed control for variable speed rotator units on four independent channels. Output connections are made via four conductor cables terminating in two 4-pin XLR connectors.

## Hybrid Two-Fer

This accessory allows you to connect the iPro and your light fixture into the same dimmer. The two-fer is configured with a male stage-pin connector for the dimmer and both a female stage pin connector for the light and a female parallel blade connector for the iPro.

### Hybrid Two-Fer

No. 265 25500 0000

## I-Cue Intelligent Mirror

A spotlight attachment to re-position a beam of light. This allows a single spotlight in a fixed position to be used for multiple specials in dozens of locations. Onboard DMX is included. A Power Supply Unit is necessary to get 24v DC to the I-Cue.

### I-Cue Intelligent Mirror

No. 205 81000 0120

## DMX Iris

Having complete control over the beam spread of your leko just got easier. The Rosco DMX Iris is quiet, dependable, affordable, and a perfect complement to the I-Cue Moving Mirror. This 24 leaf motorized iris unit can be used with your ETC Source Four, Selecon Pacific or most other modern lekos. Unlike other iris units that have only 18 or fewer leaves in the aperture, the Rosco DMX Iris creates an even edged, perfectly round aperture all the way down to its smallest diameter. Using 1 channel of DMX512, the DMX Iris's movement is smooth even along very slow cross fades. A microprocessor controlled stepper motor connects to the mechanical arm of the iris unit, replacing the unreliable noisy chain drive system found in other products. A manual knob lets you use the DMX Iris without DMX control just by dialing in the aperture size you want, just as you would a conventional iris unit. The Rosco DMX Iris requires a non-dim circuit and is auto-sensing from 100-240 volts for use anywhere in the world. No costly external PSU is needed.

### DMX Iris

No. 205 74500 0000

## X24 X-Effects Projector

This has become the projector of choice for shows or installations requiring a fire or water effect. It provides stunning rippling light effects previously unavailable to designers. The projector is available with on-board DMX with dowsers for theatrical applications and in an analog version for retail, museum or architectural applications.

### X24 DMX X-Effects - Black (lens sold separately)

## iPro™ Image Projector

The iPro fits as an accessory into the iris slot of a typical ETC Source Four, Altman Shakespeare, Strand SL or Selecon Pacific light fixture. Fitted with an iPro Slide, the iPro™ delivers bright, visible full-color images that will last between 15 and 50 hours.

### iPro Image Projector

No. 265 25100 0120

## Infinity Gobo Animation Unit

The Infinity Gobo Animation Unit, which can be attached to virtually any spotlight, is used with a steel or glass gobo in the gate to provide unusual kinetic effects. The Infinity is equipped with onboard control of the Infinity Disk speed and direction, as well as an on/off switch. Supplied with an adaptor plate and one Infinity Disk of your choice.

See page 20 for Infinity Disks.

### Infinity

No. 205 82500 0000

## Gobo Catalog

Rosco's Gobo Catalog lists the entire range of standard gobos available, as well as several pages of useful technical information. It is available from any Rosco office or reseller or may be downloaded from the Rosco website. You can also choose gobos from the Rosco website ([www.rosco.com](http://www.rosco.com)) or from the free MyGobo app for iPhones, iPads, and iPod Touch.

## Standard Designs

Rosco offers approximately 2,000 standard designs in its gobo collection. Each design is available for virtually any known fixture used in theatrical or display lighting. Rosco re-sellers can usually deliver standard gobos either off the shelf or within a day or two.

**Standard Steel and Glass gobo designs available in all sizes.**

No. 77730

## Colorizers™

Multi-colored glass gobos that can be used alone or in combination with a steel gobo. Recommended for fixtures up to 1,000 watts. Requires the use of either a Glass Gobo Holder or the Universal Iris Slot Holder.

No. 55004

**Available in Standard B and most Moving Light sizes. Also available in X size for Rosco X24 projector.**

## iPro™ Printing Pack

Contains 10 sheets of iPro Slide Film and 10 One-Time iPro Slide Mounts

No. 265 27985 0010

## iPro™ One-Time Slide Mount

Contains the slide mount and protective film necessary to make an effective iPro Slide. Using your own transparency film and your own printer to create the image, you can then assemble a finished iPro Slide. Transparency film not included.

### iPro Slide Mount

No. 265 27999 0860

## Cool Ink™ Plastic Gobos

Cool Ink gobos are a great solution for temporary projections in many LED luminaires. Check with the fixture manufacturer, or Rosco, to ensure that your LED luminaire will accept plastic gobos. The Cool Ink gobo's rigid plastic ring secures the Cool Ink gobo for easier handling and installation\*. Rosco provides fast turnaround from receiving your artwork to shipping the product, usually one business day for Cool Ink Gobos.

\*As with all gobos, handle via the bezel to avoid fingerprints on the image area.

## Pixel Patterns

A digital content library of the most popular Rosco patterns - available for use with any LED screen or digital projector and compatible with any modern operating system or media server.

Pixel Patterns is available as a USB thumb drive containing 1500 static masks, 100 animations of existing Rosco patterns, and 20 original animations for video and projection designers. Use the content in Pixel Patterns for live performances, concerts, corporate & special events, nightclubs and houses of worship.

- Project static masks to create shadows and texture.
- Display the animations on an LED wall for unique, background imagery.
- Combine Pixel Patterns with an existing library to enhance the content.

### File Formats

Static Masks: 2500 pixel x 2500 pixel .png files with an open Alpha channel

Animations: .mp4, 1920W x 1080H, Frame Rate: 30fps

### Pixel Patterns

No. 266 22010 01000

## Cool Ink™ HD Gobos

Cool Ink HD gobos are recommended when a longer lifespan and greater projected resolution are desired from your plastic gobo. Protective coated glass layers and a metal bezel sandwich the plastic for greater durability and to allow the image area to be cleaned with a soft dry cloth (unlike straight plastic). A true opaque black background in the Cool Ink HD gobo creates the higher definition image. Rosco provides fast turnaround from receiving your artwork to shipping the product, usually just two business days for Cool Ink HD Gobos.

## RoscoVIEW™

RoscoVIEW™ is a unique two-part window control system for film and television professionals. It consists of wide width polarizing filter installed on windows and a matching camera polarizing filter. Rotating the camera filter results in 100% control of exterior brightness as seen through the window. P.O.A. See the demo video at <http://www.rosco.com/FTVP/roscoview.cfm>

## RoscoShades™

The RoscoShades™ system allows television professionals to quickly and conveniently balance outdoor and studio light when there is a window in the TV or video picture. Custom filter shades are made to precisely fit the studio windows, so there is no light or glare. You can choose the filtration you need and have it in place in just a few minutes by electronically or manually lowering or retracting the appropriate material. Details and a demo video at <http://www.rosco.com/FTVP/rosco Shades.cfm>

## Butterflies and Overheads

A number of Cinegel materials are available to fit the standard butterfly and overhead frames used in motion picture and television production. All materials are supplied edge-finished with binding and grommets on 24" centers and sewn hems, except for No. 3014 Hilite and No. 3029 Silent Frost. The latter two have an ultrasonic welded seam every 48".

Silent Frost	No. 3029	Grid Cloth	No. 3030	Light Grid Cloth	No. 3032	1/4 Grid Cloth	No. 3034
Silent Grid Cloth™	No. 3060	Silent Light Grid Cloth™	No. 3062	Silent 1/4 Light Grid Cloth™	No. 3064	Hilite	No. 3014

1/2 Straw Grid Cloth	No. 3082	Straw Grid Cloth	No. 3083	Moonlight Grid Cloth	No. 3090		

## Roscopak™

Roscopak material is light in weight, yet strong and durable. The material can be taped or tacked to virtually any wall, ceiling or panel to turn that area into an efficient reflector. Roscopak measures 4' x 41/2' (1.2 x 1.4 m), and is packaged in a handy pocket size pouch.

Roscopak S/G (silver/gold) No. 08509 4854

## Polarizing Filters

A neutral grey linear polarizing film used in front of lights to reduce the glare caused by smooth surfaces such as glass, water, paper and certain metallic objects. Should be placed at a slight distance from hot lights.

Sheet: 17" x 20" No. 07300 1720 | Roll: 17" x 10' No. 07300 1710

## Acrylic Panels

Acrylic sheets for daylight correction or light intensity reduction. Available in 4' x 8' and 5' x 8' sheets. Minimum quantity of 5.

Roscolex 85	No. 3761	Roscolex 1/2 CTO	No. 3751	Roscolex N.3	No. 3762
Roscolex N.6	No. 3763	Roscolex N.9	No. 3764		

## Cinefoil

Cinefoil is a matte black aluminum material used for masking light leaks and/or eliminating unwanted reflections. It can be quickly molded to form barndoors, flags and other configurations.

Cinefoil 24" x 25' No. 101 01001 2425 | Cinefoil 12" x 50' No. 101 01001 1250 | Cinefoil 48" x 25' No. 101 01001 4825 | Cinefoil 36" x 25' No. 101 01001 3625

Cinefoil is also available in shorter lengths for still photographers, videographers and students. Called Photofoil it offers the same light control properties at an economical price.

Matte Black Photofoil, 12" x 10'	No. 101 01001 1210	Matte Black Photofoil, 24" x 10'	No. 101 01001 2410

## Lens/Reflector Cleaner

The professional's choice for over 50 years. Specially designed for cleaning lenses, mirrors, reflectors, glass and dichroic filters, and other fine quality optics.

Lens Cleaner 2 ounce drip bottle	No. 855 07202 0002
Lens Cleaner 8 ounce spray bottle	No. 855 07202 0008
Lens Cleaner 16 ounce bulk bottle	No. 855 07202 0016

## Lens Tissue

Premium, lightweight, disposable, micro-fiber tissue for cleaning lenses, filters and optics.

Lens Tissue 4" x 6" booklet	No. 855 07204 0406
Lens Cleaner Towelettes (25/box)	No. 855 B7202 0204

## Roscotiles

This rugged floor product is 3 foot by 3 foot (.914 m x .914 m) squares, making it easy to pick up and put down. Designed for video production facilities, each 1/8" thick, 12 pound tile is designed to lie flat for temporary, as well as permanent installations. Available in White, Black and TV Grey.

<b>White</b> No. 300 08415 3636	<b>TV Grey</b> No. 300 08435 3636
<b>Black</b> No. 300 08422 3636	

## Chroma Floor

Rosco's new Chroma Floor solves the long-standing problem of repainting your studio floor for every shoot. Chroma Key Blue on one side and Chroma Key Green on the other make Chroma Floor an ideal addition to any studio. Precise color matching with Rosco Chroma Key paints allows for seamless compositing.

Manufactured of lightweight portable vinyl, the floor is easy to install, easy to clean and easy to maintain. Chroma Floor is also great for location shots. The floor is 1.3 mm thick and weighs just 1.9 pounds per linear foot.

**Blue/Green Chroma Floor**  
No. 300 08726 6300

## Vapour Series Fog & Haze Machines

Designed with features to meet the needs of anyone needing reliable atmospheric effects, the Vapour Series has been engineered from the ground up to meet the diverse needs of a wide range of applications including theatre, feature film & television, theme parks and photographic studios. All of the Vapour fog and haze machines have been designed to be affordable and easy-to-use & maintain thanks to features like DMX on-board, intuitive remotes and an air-input valve for simple cleaning. No matter how you use fog or haze – Rosco's got a machine for you.

### Mini-V

The most affordable and compact fog machine in the range, the Mini-V delivers a continuous stream of professional-quality fog. The Mini-V's small design and energy-efficient, durable heat exchanger make it a perfect choice for mobile users or applications that lack the space for a larger fog generator.

**Mini-V Fog Machine - 120v**  
No. 200 81110 0120

**Mini-V Fog Machine - 240v**  
No. 200 81110 0240

### V-Hazer

Quiet and reliable, the V-Hazer creates beautiful haze that spreads throughout a venue consistently and smoothly. The V-Hazer features a blower that turns off when not in-use to ensure the quietest operation possible, as well as continuous output, a simple, one-step cleaning process and digital DMX. Adjust output on the fly with remote, or gain independently-controlled fan speed and haze volume through DMX-control.

**V-Hazer - 120v**  
No. 200 84440 0120

**V-Hazer - 240v**  
No. 200 84440 0240

### Vapour

The workhorse of Rosco's new family of fog machines, the Vapour comes packed with all the features that a professional effects technician could want - including solid reliability and ease of maintenance. Featuring continuous fog output, a simple, one-step cleaning process, digital DMX and common core components that are designed to be replaced quickly – the Vapour can be relied upon to get the job done.

**Vapour Fog Machine - 120v**  
No. 200 82220 0120

**Vapour Fog Machine - 240v**  
No. 200 82220 0240

### Coldflow™

Converts liquid carbon dioxide to dry ice to chill an aluminum chamber. The output of a fog machine passes through the aluminum chamber and is chilled so that it lays close to the ground. For best effect use Rosco Stage & Studio Fluid.

**Coldflow – 120v**  
No. 200 61700 0120

**Coldflow – 240v**  
No. 200 61700 0240

### Vapour Plus

Designed specifically to fill large venues and outdoor spaces quickly and efficiently, the Vapour Plus produces enormous bursts of fog. This machine produces stadium-sized fog effects, yet is small enough to mount inside box truss and power from a single mains circuit. Features include a simple, one-step cleaning process, digital DMX, common core components that are designed to be quickly and easily replaced, and the ability to be mounted vertically to create cryogenic-style effects.

**Vapour Plus Fog Machine - 120v**  
No. 200 83330 0120

**Vapour Plus Fog Machine - 240v**  
No. 200 83330 0240

### PF-1000

The PF-1000 is designed for remote, precise applications where the use of a standard fog machine is not practical. A basic system consists of a separate Heat Exchanger Module, a Control Center and related tubing and wiring. The small size of the system allows it to be used in places a standard fog machine can not fit, such as in props and animated mannequins. Regulate compressed air can be introduced through the heat exchanger to add to the creation of punctuated effects and for cleaning. The system can be controlled directly from the Control Center or with modification, be activated through a lighting control board or a show control computer.

**PF-1000 with Air Input Kit - 120v**  
No. 200 31000 0120

## Rosco Fog Fluid

Rosco Fog Fluid, for over 30 years is the most widely used fog fluid in theatre, live entertainment and theme parks. When vaporized, this water-based formulation produces a dense, realistic fog with a long hang time.

**1 Liter Bottle**

No. 200 08200 0034

**4 Liter Bottle**

No. 200 08200 0135

## Stage and Studio Fog Fluid

A water-based fluid which creates dense fog that will dissipate more quickly than standard fluid. Also recommended for use with the Rosco Coldflow to produce low-lying fog.

**1 Liter Bottle**

No. 200 09000 0034

**4 Liter Bottle**

No. 200 09000 0135

*Rosco has been honored by the Academy of Motion Picture Arts and Sciences® four times. One of the Oscars (in this case a Scientific and Technical Award) was for "the development of a safe, non-toxic fluid for use in motion pictures."*

## Rosco Clear Fog Fluid

Produces dense fog with a long hang time without the traditional Rosco scent.

**1 Liter Bottle**

No. 200 08600 0034

**4 Liter Bottle**

No. 200 08600 0135

## Rosco Light Fog Fluid

A water-based fluid that produces a more translucent fog, which disperses quickly into a beam-catching haze effect while maintaining a long hang time.

**1 Liter Bottle**

No. 200 08500 0034

**4 Liter Bottle**

No. 200 08500 0135

## V-Hazer Fluid

Designed for use exclusively with Rosco's V-Hazer, this fluid creates a smooth haze inside performance venues, photographic studios and production soundstages. Due to its waterbased composition, V-Hazer Fluid won't leave behind an oily residue on performers, set pieces or equipment. When used with the Rosco V-Hazer, this fluid will create a steady, reliable haze that will hang in the air for hours to enhance lighting effects.

**4 Liter Bottle**

No. 200 08800 0135

## F-1 Fog Fluid

Rosco's F-1 Fog Fluid is designed to be compatible with the popular High End F-100™ Fog Generator. Available in a 1 gallon and 2.5 gallon bottle, this formulation is composed of the highest grade components available.

**F-1 Fog Fluid 1 Gallon Bottle**

No. 200 08700 0128

**F-1 Fog Fluid 2.5 Gallon Bottle**

No. 200 08700 0320

## Rosco Bubble Fluid

Building on Rosco's 30+ years of success manufacturing the world's highest quality fog fluids, Rosco has developed a new formulation of bubble fluid. Engineered as a universal fluid to work in any bubble machine, Rosco's water-based Bubble Fluid creates higher volumes of extra colorful bubbles that fly higher and farther than existing fluids currently available—with next to no residue left behind, which makes it safer to use on performance and dance spaces or in areas with expensive technology.

**Bubble Fluid – Gallon**

200 09500 0128

## Off Broadway

A vinyl acrylic paint which may be used on a wide variety of scenic materials including hard scenery, foam scenery, drops and ground cloths.

No. 150 06200 0KIT	Rosco Sampler This 23-piece kit contains an assortment of one ounce color samples from Iddings Deep Colors, Supersaturated, Off Broadway and Fluorescent Paint.	No. 150 07900 0KIT

## Fluorescent Paint

Vivid vinyl acrylic colors are brilliant in normal light and glow brightly when bathed in ultraviolet light. White fluoresces a light blue under black light. Invisible blue appears milky white under normal light but glows blue in ultraviolet. Product numbers refer to color only.

White	No. 150 05779	Red	No. 150 05780	Orange	No. 150 05781
Yellow	No. 150 05782	Green	No. 150 05783	Blue	No. 150 05784
Invisible Blue	No. 150 05785	Pink	No. 150 05786	Gold	No. 150 05787

Add 0128 to the product number for One Gallon, 0032 for One Quart. and 0016 for One Pint.

## Vivid FX™

The exceptional pigments in Vivid FX glow most brilliantly between 365-380 nanometers. This creates stunning black light effects and the colors intermix cleanly to provide a wide array of intermediate fluorescent hues. Product numbers refer to color only.

Bright White	No. 150 06250	Lemon Yellow	No. 150 06251	Orange Sunset	No. 150 06252
Orange	No. 150 06253	Scarlet Red	No. 150 06254	Hot Pink	No. 150 06255
Magenta	No. 150 06256	Violet	No. 150 06257	Deep Blue	No. 150 06258
Brilliant Blue	No. 150 06259	Aquamarine	No. 150 06260	Electric Green	No. 150 06261
Deep Green	No. 150 06262				

Add 0128 to the product number for One Gallon, 0032 for One Quart. and 0016 for One Pint.

## Tough Prime™

Rosco offers a unique water-based primer with adhesion properties that allow it to bond to the hard-to-prime scenic materials found in every scene shop. Tough Prime covers just about any surface, including PVC pipe, aluminum, foams and concrete floors, as well as wood and foam core.

Tough Prime White No. 150 06050 | Tough Prime Black No. 150 06055

Add 0032 to the product number for Quarts, 0128 for One Gallon and 0640 for Five Gallons.

## Acrylic Glazes

Designed to be diluted with water and applied as an overcoat to a painted surface. They can also be mixed with the paints for additional binder strength.

Clear Gloss No. 150 05580 | Clear Flat No. 150 05581  
 Add 0640 to the product number for Five Gallons, and 0128 for One Gallon.

## ColorCoat™

Fast drying water borne acrylic enamel. Good choice for decks and floors due to its high abrasion resistance.

Clear No. 150 05620 | Clear Satin No. 150 05621 | Black No. 150 05634  
 Flat Black No. 150 05635 | Aluminum No. 150 05636

Product numbers refer to color only.  
 Add 0128 for One Gallon and 0032 for One Quart.

## Roscoglo™

A phosphorescent water-based paint designed for use in total darkness for stage direction and visual orientation.

Ounce No. 150 05666 0001 | Pint No. 150 05666 0001

## Premiere Clear

Water-borne urethane coating suitable for sealing and protecting painted finishes, floors, and high-traffic surfaces. Add 0128 to the product number for One Gallon and 0032 for One Quart.

Premiere Clear Flat No. 150 06830 | Premiere Clear Satin No. 150 06820  
 Premiere Clear Gloss No. 150 06810

## Rosco Fitch Brushes

Rosco's professional quality scenic fitches, often called lining brushes, are available individually and in two handy kits. All brushes feature seamless ferrules and natural bristles.

Brush No. 155 05610 (add number in parentheses for each size)

1/4" Fitch (0025)	1/2" Fitch (0050)
3/4" Fitch (0075)	1" Fitch (0100)
1 1/4" Fitch (0125)	1 1/2" Fitch (0150)
2" Fitch (0200)	3" Fitch (0300)

7 Brush Set No. 155 056107KIT  
 Includes fitches whose ferrule widths are: 1/4", 1/2", 3/4", 1", 1 1/4", 1 1/2" and 2"

8 Brush Set No. 155 056108KIT  
 Includes all the brushes in the 7 Brush Kit plus a 3" Fitch Foliage

## CrystalGel™

Rosco CrystalGel is a non-toxic, water-based material which provides a clear, plastic-like coating on virtually any surface used in modern stagecraft.

Gallon No. 150 07400 0128 | 5 Gallon No. 150 07400 0640

## Foamcoat™

Water-based, flame retardant, protective coating for all rigid foams. Foamcoat dries to a super hard durable coating that resists chipping and cracking.

Gallon No. 150 07100 0128 | 3 1/2 Gallon No. 150 07100 0448

## Flexcoat™

Flexible, non-toxic, water-based coating for polyurethane and polystyrene foam. It contains no plasticizers, so it will not become brittle with age or exterior exposure.

Gallon No. 150 07120 0128 | 5 Gallon No. 150 07120 0640

## Flexbond™

Clear, flexible scenic glue which bonds many porous and non-porous scenic materials. Rosco FlexBond dries to a clear, hard, yet pliable coating that does not suffer from the "tackiness" common in many other flexible glues.

Gallon Jug No. 150 07500 0128 | 5 Gallon Pail No. 150 07500 0640

## Rosco Flamex

### Flamex NF/Natural Fiber Flame Retardant

Should be used on fabrics like cotton, linen, wool, burlap and most other materials made of natural fibers. Premixed for use straight out of the bottle, NF is perfect for treating backdrops, velours, muslin cycloramas and decorative fabric panels.

Flamex NF Gallon No. 150 079NF 0128

### Flamex WD/Raw Wood Penetrating Flame Retardant

WD is intended for untreated wood, plywood, cellulose board, acoustical board and corrugated paper.

Flamex WD Gallon No. 150 079WD 0128

### Flamex PA/Latex Paint Additive Flame Retardant

PA can be added to most latex or water based paints in order to create a flame retardant paint film. PA is useful for treating scenic materials that cannot easily be treated by other methods and for supplying the additional protection of a fire retardant paint coating.

Flamex PA 8-oz jar No. 150 079PA 0008  
Flamex PA Case of 12 jars No. 150 079PA 1208

### Flamex PC/Paper and Cardboard Flame Retardant

Effectively treats papers and un-waxed cardboard materials. Premixed for use straight out of the bottle, PC is perfect for props and set pieces made from flammable paper products.

Flamex PC Gallon No. 150 079PC 0128

### Flamex SF/Synthetic Fiber Flame Retardant

Effectively treats many synthetic fibers, such as polyesters, nylons, acrylics and rayons, as well as most cotton/synthetic blends. Premixed for use straight out of the bottle.

Flamex SF Gallon No. 150 079SF 0128

### Flamex DF/Delicate Fabrics Flame Retardant

Use for synthetic weaves, rayon or silk. Premixed for use straight out of the bottle, DF maintains the gentleness and soft hand of fragile fabrics and draperies.

Flamex DF Gallon No. 150 079DF 0128

*Chautauqua Theatre Company (July 2007), "The Just" by Albert Camus  
Directed by Ethan McSweeney, Lighting Design by Scott Zielinski*

Rosco's projection screens can be used for front or rear projection, digital or analog imaging, close up or long throw installations. Available in 55" or 86" wide rolls or in custom finished sizes.

*Colors and recommended uses:*

**Front White:** Bright white surface for front projection use.

**Twin White:** Suitable for front or rear projection, or as a cyclorama.

**Grey:** Recommended for rear projection.

**Black:** For rear projection and high ambient light situations.

**Light Translucent:** Virtually clear, suitable for daytime, exterior rear projections or in exceptionally bright ambient light conditions.

## 55" Seamless Screen

55" (139.7 cm) wide. Minimum order is one linear yard.

**Grey**  
No. 500 52105 55

**Light Translucent**  
No. 500 52108 55

**Twin White**  
No. 500 52106 55

**Front White**  
No. 500 52109 55

**Black**  
No. 500 52107 55

## 93" Seamless Screen

Minimum order is one linear yard.

**Front White**  
No. 500 52109 93

## Custom Screen

Rosco will fabricate a custom screen to your precise specifications for size, shape, and finishing details. Standard pricing includes grommets on 12" centers, vertical seams, finished edges and a pipe pocket and skirt. Irregular shapes can be made but may require additional set-up charges. Delivery in as little as two weeks. All Rosco screens are flame-retardant and washable.

Dimensions to outside edge of screen, rounded up to the foot.  
Minimum order: 100 square feet

### Finished Screen

55" panels

86" panels

55" panels

86" panels.

### Unfinished Screen (raw edges)

## 110" Screen

Double width continuous rolls of two 55" sections welded together. Minimum order is two linear yards.

**Grey**  
No. 500 52105 10

**Light Translucent**  
No. 500 52108 10

**Twin White**  
No. 500 52106 10

**Front White**  
No. 500 52109 10

**Black**  
No. 500 52107 10

## Stretch-N-Hook™

This versatile fastener is constructed of 5/32" (4mm) elastic cord with a sturdy molded hook. Overall length is 12".

**Stretch-N-Hook**  
No. 500 05100 0010

## Transparent Screen Tape

This temporarily seaming screen yardage together for a production, or for temporary repairs of screen material. Taped seams may spread within two months. 48 mm x 50 m.

**Transparent Screen Tape**  
No. 851 05100 4850

## Breakaways

Plastic breakaways shatter realistically and are specially packaged to assure that they are delivered intact. Bottles are shipped with labels unattached for easy customization. Minimum order: 6 breakaways. (Bottles must be the same color.)

1/2 dozen	
<b>Beer Bottle - Amber</b>	No. 852 80011 0000

<b>Rigid Silver (51" x 30')</b>	No. 359 03931 5130

## Shrink Mirror™

Rosco's Silver Shrink Mirror is a lightweight substitute for heavy glass mirror. This metalized plastic laminate is designed to be mounted to a frame and heat shrunk for superior reflectance. 54" x 30'.

**Silver Shrink Mirror**  
No. 359 03909 5430

## Custom Candle Range

Rosco Flicker Candles can be custom built into many popular settings. Here are some examples of the bases and specialty settings available.

**A Three Arm Candelabra**  
No. 854 09002 0000

**B Single Candlestick**  
No. 854 09004 0000

**C Professional Flicker Candle**  
No. 854 09001 0017

**D Classic Hurricane Lantern**  
No. 854 09003 0000

**E Classic bottle with realistic dripping wax**  
No. 854 09006 0000

**F Classic saucer holder**  
No. 854 09005 0000

## Flicker Candles™

A theatrical alternative to flame candles, these units look and act just like the real thing . . .right down to the dripped wax. Most importantly, they are powered electrically, so they don't present potential hazards of using live flames. A simple 9-volt AC Adaptor allows you to raise or lower the dimming level on the Flicker Candles.

### Professional Flicker Candle

No. 854 09001 0017

17 1/2" long by 1 1/2" in diameter. Comes with 4 foot leads for remote installation to a power source.

### Self-Contained

No. 854 08903 0009

Complete with a candle tip, a realistic stem with a dripping wax look, an on-off switch, and connection for a 9 volt battery, this 9 3/4" unit is for productions where the performers need to carry a candle from place to place or where the candle needs to be turned "on" or "off" during the show.

### Wired Stem

No. 854 08902 0009

The Wired Stem Model is 9 3/4" and consists of the candle tip, candle stem and 4 foot leads for remote installation to a power source.

### Basic Module

No. 854 08901 0004

The Basic Module is a 4" long unit with short pins for wiring to a power source and is ideal for building custom units.

## Glamé™

Glamé is woven from a durable, lightweight, self-extinguishing plastic film.

48" x 30 ft. roll. 330 ft. bolts also available.

## GaffTac™ 2in Gaffer Tape

Manufactured using a premium quality polyethylene coated cloth laminate with a natural rubber-based adhesive. This unique adhesive offers high tack with excellent adhesion yet still removes cleanly without leaving behind any sticky residue. It's also easily tearable, which means no need for cutting tools. The fine mesh weave of the cloth laminate base is resistant to edge fraying and offers a smooth, matte surface with minimal sheen – perfect for remaining “invisible” on set, in the grid or in frame.

Rolls measure 48mm x 50m (2" x 55 yds.)

<b>Black</b>	No. 851 12221 4850
<b>Black (Case of 24)</b>	No. 851 12221 0BOX

<b>Grey</b>	No. 851 12223 4850
<b>Grey (Case of 24)</b>	No. 851 12223 0BOX

## GaffTac™ 1in Marking Tape

Made on a traditional cotton cloth and vinyl coated fabric base and uses a synthetic rubber blend adhesive. This combination provides high tack with excellent adhesion yet still removes cleanly without leaving behind a sticky residue. It's also easily tearable, which means no need for cutting tools. The textured weave of cotton fabric helps insure a non-reflective, matte surface, making it perfect for taping down various set and lighting components, as well as maintaining clean, legible written text.

Rolls measure 48mm x 50m (2" x 55 yds.)

<b>Black</b>	No. 851 12221 2425

## GaffTac™ 2 in Keying Tape

Made on a traditional cotton cloth and vinyl coated fabric base and uses a synthetic rubber blend adhesive. This combination provides high tack with excellent adhesion yet still removes cleanly without leaving behind a sticky residue. It's also easily tearable, which means no need for cutting tools. The textured weave of cotton fabric helps insure limited reflections or glare that might spoil the keying shot.

Rolls measure 48mm x 50m (2" x 55 yds.)  
12mm x 25m (1/2" x 27 yds.)

<b>Flourescent Green 2" (48mm)</b>	No. 851 12224 4850

## Hinges and Pin Wire

Hinges are generally used as an aid in attaching scenery flats. Three types are available. Loose Pin Hinges with removable pins; Tight Pin Hinges with permanent pins. The Sure Hinge is a special type of loose pin hinge with interchangeable halves. It is scored so you can bend it around nominal 1" lumber.

### 1.5" Loose Pin Hinge – Box of 12 hinges

No. 850 73100 0001

### 1.5" Tight Pin Hinge – Box of 12 hinges

No. 850 73150 0001

### 2" Loose Pin Hinge – Box of 12 hinges

No. 850 73200 0002

### 2" Tight Pin Hinge – Box of 12 hinges

No. 850 73250 0002

### Sure Hinge – Box of 12 hinges

No. 850 73300 0000

### Pin Wire – One-pound bundle.

No. 850 73500 0000

*Often used as an alternate pin in hinges and for other stage purposes.*

Loose Pin Hinge

Tight Pin Hinge

Sure Hinge

## Hanging and Attaching Hardware

### Ceiling Plate With Ring

No. 850 76220 0000

Lines or cable are more easily attached with this device affixed to the ceiling of a box set. May also be used to hang relatively lightweight scenery.

### Top Hanger Iron

No. 850 76310 0000

Affixed to the top of a scenery flat for hanging.

### Bottom Hanger Iron

No. 850 76320 0000

Fits under the bottom member of a scenery flat. Usually secured parallel to the Top Hanging Iron.

### D-Ring Plate with Ring

No. 850 76410 0000

The floor plate bolts to the stage floor and lines may be tied off through the D-ring.

## Sandbags

These sandbags are carefully rated for the weight of sand they will hold. Made from strong canvas, reinforced with a sling, and equipped with a heavy metal hook and safety catch. Sand is not included.

No. 850 72610 Sandbag (add 4 digits for size)

10 pound sandbag	(0010)
25 pound sandbag	(0025)
50 pound sandbag	(0050)
75 pound sandbag	(0075)
100 pound sandbag	(0100)
150 pound sandbag	(0150)
200 pound sandbag	(0200)

## Sure Clamp

The Sure Clamp has a grip range of 1 1/4" to 2" and is used to hang lighting fixtures or scenery directly to pipes. An extra-secure substitute for the standard C-Clamp, it closes automatically when weight is hung on it and is further secured by a hand knob which requires no tools for adjustment.

### Sure Clamp

No. 850 78020 0000

## Stage Screws

Stage screws are used to fasten flats or scenery pieces to the stage floor. They go directly into the wood stage floor. The Steel Stage Screw should be used when the screw must be used in the same place several times, or where exceptional holding power is needed. To use the Steel Stage Screw, drill a 9/16" hole, screw the Stage Plug into the floor with a wide straight blade screwdriver, then fit the screw into the plug.

Steel Stage Screw

Stage Plug

### Stage Screw

No. 850 74200 0000

### Steel Stage Screw

No. 850 74100 0000

*3/8" diameter. Heavy steel w/ zinc plating.*

### Stage Plug

No. 850 74150 0000

## Wagon Brakes

Mounted to the side of a platform or scenery, this brake actually lifts the scenery off its casters, preventing the wagon from shifting under active actor movements. A unique lever action pushes down a plunger, lifting even very heavy pieces with only minimal force required from a stagehand. A minimum of two brakes per unit are recommended.

### Wagon Brake w/Extension Spindle (5/16" x 2 1/2") (300 lb. max.)

No. 850 74510 0000

### Heavy Duty Wagon Brake (800 lb. max.)

No. 850 74550 0000

### Heavy Duty Extension Spindle (optional)

No. 850 74555 0000

## Belay Pins

**CLEARANCE\***

### 17" Wood Belay Pin

No. 850 71700 0017

Solid hickory wood, with an easy grip handle. 1 1/32" diameter

### 21" Wood Belay Pin

No. 850 71700 0021

Same as above but with 4" longer shaft and 1 5/32" diameter

## 20-Amp Dual Termination Connectors

Direct wire or lugged connections. All the necessary hardware for either style is included with each connector. Included strain relief inserts allow the connector to grip standard industry cables ranging from 12/3 stage cable to sleeved fixture leads.

### 20 amp male DTConnectors

No. 12120

### 20 amp female DTConnectors

No. 22120

Connector hardware is available in bulk packs for large shops or installation projects. The bulk pack contains hardware sufficient for 100 connectors packed by like type for binning on the assembly bench. Also available are 20-count packages of connectors. These are supplied with a set of hardware conveniently packed with each connector. To order 20-count packages of male connectors, use Product Code 203 12120 2020; for 20-count packages of female connectors use Product Code 203 22120 2020.

### Color Covers

Connectors can be equipped with your choice of colored covers. Only available in 100 count boxes of covers.

#### Black – 100 count

No. 203 00232 0100

#### Red – 100 count

No. 203 00332 0100

#### Green – 100 count

#### Clear – 100 count

No. 203 00732 0100

### Personalized Connectors

20-amp DTConnectors can be personalized with a company or organization name or logo on the cover. Personalized covers can be supplied with new connector orders or as replacement covers for existing Rosco connectors.

## 60A Connectors

Rosco's 60 amp connectors are available in both panel mount and cable end configurations. UL-listed.

### 60A Male Plug

No. 203 10126 6001

### 60A Female Receptacle

No. 203 20126 6001

## Adapters

Rosco's Adapters are designed to quickly adapt Rosco 20A Connectors to the most common connections found: Twistlock and U-ground. Unibody construction and internally wired at the factory.

### 20A M Pin to 15A F U-ground

No. 203 70005 2001

### 20A M Pin to 20A F Twistlock

No. 203 70003 2001

### 20A F Pin to 15A M U-ground

No. 203 70007 2001

### 20A F Pin to 20A M Twistlock

No. 203 70004 2001

## Panel Mount Connectors

Made of high heat resistant material, the Rosco Panel Mount Connector conforms to industry standards for compatibility and installation. UL-listed.

### 20A Male Panel Mount

No. 203 50002 2001

### 60A Female Panel Mount

No. 203 60006 6001

### 20A Female Panel Mount

No. 203 60002 2001

### 60A Male Panel Mount

No. 203 50006 6001

## Auxiliary Strain Relief

A supplemental Strain Relief is available for the DT Connector when used with undersized cable. It will accept up to 16/3 Type S cable.

### Auxiliary Strain Relief

No. 203 80002 2001

## Floor Catalog

Rosco's floor products are organized in a multi-page catalog. Available as a download at [www.rosco.com](http://www.rosco.com)

### Dance Floor

Rosco Dance Floor is lightweight (1.9 pounds per linear foot) and is reversible with black on one side and your choice of white or grey on the other. Floor thickness is .05" (1.3 mm), width is 63" (1.6 m) and it is sold by the linear foot or full rolls 131.25 (40 m) feet long.

**Black/Grey 63" x linear foot**

No. 300 58720 63XX

**Black/Grey 63" x 131.25 feet**

No. 300 58723 6300

**Blue/Green Chroma Floor 63" x 131.25 feet**

No. 300 58726 6300

### Arabesque

Arabesque is, on a cost-per-square-foot basis, Rosco's most affordable floor. With a thickness of .078 inches (2mm), Arabesque offers durability that is ideal for hard-soled styles of dance such as tap, hard shoe Irish and Flamenco. Arabesque is available in a marble finish that not only helps hide scuff marks, but also adds a note of elegance to your studio. The floor is 78.74" (2 m) wide and can be specified by the linear foot or full 65.6' (20 m) roll.

**Marble Black 79" x linear foot**

No. 300 58222 79XX

**Marble Black 79" x 65.6 feet**

No. 300 58222 7900

**Marble Grey 79" x linear foot**

No. 300 58218 79XX

**Marble Tan 79" x 65.6 feet**

No. 300 8218 7900

### Adagio™

Adagio's durable surface can handle tap and other hard shoe dance styles, yet it is supple enough for ballet and modern dance styles. Since Adagio is dimensionally stable, it is suitable for permanent or semi-permanent installation. 2.5 lbs. per linear foot/250 lbs. per roll. Floor thickness is .06", width is 63" (1.6 m), and it is sold by the linear foot or full rolls 101.7 feet (31 m) long.

**Black 63" x linear foot**

No. 300 58922 63XX

**Black 63" x 101.7 feet**

No. 300 58922 6300

**Grey 63" x linear foot**

No. 300 58935 63XX

**Grey 63" x 101.7 feet**

No. 300 58935 6300

### Adagio™ Tour

Adagio Tour lays flat quickly and provides the same versatile surface as Adagio. Adagio Tour weighs only 1.6 lbs. per linear foot so, as its name implies, it is excellent for touring dance companies. Floor thickness is .04", width is 63" (1.6 m) and is sold by the linear foot or full rolls 101.71 (31 m) feet long.

**Black 63" x linear foot**

No. 300 58622 63XX

**Black 63" x 101.71 feet**

No. 300 58622 6300

**Grey 63" x linear foot**

No. 300 58635 63XX

**Grey 63" x 101.71 feet**

No. 300 58635 6300

## Studio Floor

An ultra matte, black vinyl floor for ballet, theatre, or any application where a light-absorbing surface is needed. Studio Floor is not appropriate for heavy traffic or other types of dance. Studio Floor is .08" thick and rolls measure 6 feet wide (1.83 m) by 60 feet long (18.29 m), weighing 250 pounds.

Sold by full roll only.

### Studio Floor Black Matte 6' x 60'

No. 300 78035 7200

## Performance Floor

A durable, all-purpose floor, best for permanent or semi-permanent installations in studios, multi-purpose rooms, stages and showrooms—anywhere traffic is heaviest. Available in black, white, light and dark grey. Performance Floor is .1" thick and rolls measure 6 feet wide (1.83 m) by 60 feet long (18.29 m), and weigh 280 pounds.

Sold by full roll only.

### Black 6' x 60'

No. 300 73035 7200

### White 6' x 60'

No. 300 73030 7200

### Light Grey 6' x 60'

No. 300 73031 7200

### Dark Grey 6' x 60'

No. 300 73025 7200

## Show Floor

Super glossy floor for special events, commercials and fashion promotions. It is not recommended for heavy traffic or for permanent installation. Available in high gloss black, white and red. Show Floor is .08" thick, and each roll measures 6 feet wide (1.83 m) by 60 feet long (18.29 m), weighing 275 pounds.

Sold by full roll only.

No. 300 74036 7200

## Roscolem Floor

A hardwearing floor that provides an ideal surface for the heaviest traffic areas. It stands up to tap, Flamenco and Irish dance but will easily accommodate soft shoe styles as well. 1" thick, 78.7" (2 m) wide and approximately 104.92 feet (32 m) long. Weight is 4 lbs. per linear foot, 425 lbs. per roll.

Sold by full roll only.

### Black 78.7" x 104.92'

No. 300 58122 7900

### Grey 78.7" x 104.92'

No. 300 58135 7900

## Rosco SubFloor

Rosco SubFloor was designed to provide the perfect combination of resilience and stability to absorb the energy from dancer's impact when contact is made with the floor. The SubFloor's simplistic design does not need any adhesives or special hardware, which means that almost anyone can easily install it into their space. This design also enables Rosco's SubFloor to be un-installed, stored, shipped and re-installed with ease when needed. The system consists of 42" x 42" panels with closed-cell foam pads that connect to each other using Rosco's unique Wave-Lock™ design. Perimeter pieces, Ramps and Customizing Panels lock the entire floor together.

### 42" x 42" x 2" Panel

## Floor Cleaners

Rosco offers different floor cleaning products, designed to meet every need. Cleaners available in liters, gallons or cases of liters or gallons.

### Rosco All Purpose Floor Cleaner

Designed for the routine, regular cleaning of all Rosco vinyl floors.

<b>1 liter</b> No. 300 09116 0034	<b>1 gallon</b> No. 300 09116 0128
--------------------------------------	---------------------------------------

### Rosco Heavy Duty Floor Cleaner

For stripping and deep cleaning of Rosco floors.

<b>1 liter</b> No. 300 09112 0034	<b>1 gallon</b> No. 300 09112 0128
--------------------------------------	---------------------------------------

### Granulated Floor Cleanser

Granulated, dissolvable chemical for cleaning all Rosco flooring surfaces.

**2 lb. tub**  
No. 300 08710 0002

## Floor Adhesives

For permanent installations. Consult a professional flooring contractor before installation.

### Premium Adhesive No. 755

For most porous surfaces, including concrete which is above grade.

<b>1 Gallon Pail (weighs 12 lbs.)</b> No. 300 08755 0128	<b>3 Gallon Pail (weighs 31 lbs.)</b> No. 300 08755 0448
-------------------------------------------------------------	-------------------------------------------------------------

Coverage is approximately 200 sq. ft. per gallon.

### Epoxy Adhesive No. 300

For non-porous surfaces and concrete below grade.

**1 Gallon Kit (weighs 15 lbs.)**  
No. 300 08300 0128

Coverage is approximately 110 sq. ft. per gallon.

### Roscoleum Adhesive

For use with Roscoleum floor only.

**4 Gallons (weighs 44 lbs.)**  
No. 300 08100 0512

## Floor Welding Threads

Welding threads are available to aid in permanent seam sealing by professional contractors. Rosco has welding threads available for Adagio, Roscoleum, Arabesque, Performance Floor, and Studio Floor.

Floor Type	Roll Length
Adagio	164 feet
Roscoleum	165 feet
Performance Floor	500 feet
Arabesque	410 feet

## Portabarre™

A truly portable ballet dance barre, Rosco's aluminum PortaBarre uses an internal double button interlocking system, making assembly and disassembly a matter of a few minutes, without requiring tools or locking keys. Sold complete with a custom designed carrying case.

<b>9' barre with carrying case</b> No. 300 09095 0108	<b>4'6" barre with carrying case</b> No. 300 09095 0054
----------------------------------------------------------	------------------------------------------------------------

## Rosco Floor Bag

Designed specifically for dancers and dance companies who tour, the Rosco Floor Bag is made of durable water-resistant PVC fabric. A hook and loop fastener along the entire length of the bag keeps it securely shut while in transit, and also allows it to open flat for loading and unloading.

**Rosco Floor Bag**  
No. 300 59000 6300

## Floor Tapes

For installing floors in temporary and semi-permanent situations.
